RED BANNER UPDATE

Date: May 1, 2024

Re: HB 3327

Signed: April 26, 2024

Effective: April 26, 2024

Topic: Student glucose monitoring

Summary: This bill amends existing law (70 O.S. § 1210.196.4 and 1210.196.8) to facilitate school district personnel access to electronically monitored glucose numbers for students using continuous glucose monitoring devices. The law now provides that a school nurse, diabetes care assistant, or other school staff may download the necessary electronic applications or software to a school electronic device or their personal electronic device, (in the absence of a school-provided device), with written permission of the student's parent or guardian.

The amended statute also provides that a school nurse, diabetes care assistant, or other school staff shall not be responsible for and shall not be subject to disciplinary action for lack of any monitoring of electronic glucose numbers outside of school hours or school-sponsored activities.

Legal counsel at the firm is currently reviewing this legislation and will be advising clients as to any recommended changes to existing district policies.
